Kenneth Rowe
What Have You
Done for Me Lately?

Las Vegas, November 27-29, 2007

Areas of Responsibility

- CAIS Development
- CAIS/CostWorks Customer Support
- CAIS Training
- Ad Hoc Reporting
- Care and Nurturing of Database and Application Server

What Is CAIS?

- Condition Assessment Information System
- Web-Based Software Application that interfaces with an Oracle Database
- Uses RS Means Line items and Assemblies
- Uses DOE and Industry Standard Models
- Produces Deferred Maintenance Costs that are reported to FIMS

3

CAIS Security

- CAIS received Cyber-Security Certification and Accreditation (C&A)
- Added application-level activity logging
- Added password security
- Added rules of behavior
- Created a Contingency of Operations Plan

CAIS Web Development

- Completed migrating all key features from client/server release.
  - FY Baseline
  - FIMS Upload for System Level DM

CAIS Web Development (Cont'd)

- Created the Summary Condition Compilation Report
- Added Mission Critical as a filter option to the Asset Level Reports
- Added Mission Critical from FIMS as a filterable field to all asset lists

CAIS Web Development (Cont'd)

- 6 Top Fives completed
- 30 additional Enhancements/Bug Fixes

Customer Support/Training

- Dozens of calls and e-mails responded to
- Supported FIMS upload

Ad Hoc Reporting

- Made it available for CAIS
- Created an IU Detail report

The Future

- How can CAIS be enhanced to make it easier for you to get your job done?
    - Create an IU Level Cost Adders Report
    - Complete more top fives
    - Additional enhancements
    - Interface to Maximo and/or Passport
    - Speed up reporting
    - Add green costs to costing database (if available)
    - Other ideas???
